Introduction

In 2006, we recognized a niche in the hardware industry where the environmental elements weighed heavily on the man made structures within it. Necessity lead to discovery, and discovery lead to the creation of **Coastal Bronze**.

We offer a full line of traditional pure bronze hardware solutions for gates, doors, windows, new construction and remodels. We provide a unique solution for any structure that requires a life long product to combat the harsh outdoor elements while maintaining a classic and charming design.

- Cost Effective and Reliable Old World Designs
- Custom Design and Fabrication for Unique and Challenging Hardware Scenarios
- A Vision Driven by Our Partners as well as the End Users of Our Products
- Dedication to Outstanding Customer Service, Striving to Exceed Expectations

Commitment To The Environment

At Coastal Bronze, our recycled bronze products represent our commitment to the environment.

We care about the planet at Coastal Bronze. With future generations in mind, we carefully choose Manufacturing Materials with the intent of a greater contribution to the health of the environment. Our hardware is manufactured from recycled copper as well as tin salvaged from various sources for a purely recycled process. While our hardware is 100% recycled material, our sub-assemblies and screws are non-recycled.
